About Dairymark.com

Dairymark.com is a division of Shainwright Consulting and Research Group Pty Ltd, and is a specialist dairy industry intelligence and consulting organization. The company has completed numerous strategic, market and business development dairy research assignments for Australian and international clients, including dairy companies, dairy industry associations, dairy industry supply companies, and government bodies. Recent examples include:

- Soy versus dairy protein – a review of health and physico-chemical properties
- Review of key indicators of dairy farm performance in Australia
- Bangladesh dairy market study
- An overview of global dairy supply & demand
- A longitudinal dairy pricing study
- A strategic review of dairy industry patent activity
- A strategic review of dairy R&D activity
- A strategic review of trends in whey permeate utilization
- A study of the Australasian dairy industry
- Strategic research identifying trends and opportunities in Asian feed markets for dairy ingredients

In addition, the company has published an expanding portfolio of multi-client reports, including:

- Milk ingredients – a strategic review of opportunities and applications in the oral care industry
- Dairy carbohydrates – a strategic review of opportunities and applications
- Dairy permeates – a strategic review of opportunities and applications
- Buttermilk solids – a strategic review of opportunities and applications
- Colostrum – a strategic review of opportunities and applications
- Global ice cream industry – strategic market, international trade & production review
- Dairy ingredients – a strategic review of opportunities and applications in the cream liqueur industry
- Galacto-oligosaccharides – a strategic review of opportunities and applications
- Dairy spray drying in Oceania – industry, company & plant profiles

More information on Dairymark.com, its capabilities, experience, geographic coverage and multi-client reports is available on the company website – visit at www.dairymark.com

Table of Contents

1. Executive Summary	1
1.1. Nutritional, physico-chemical & bio-functional attributes	1
1.2. Casein global production volume – a return to growth	2
1.3. Key industry issues	2
2. Global Casein Production	7
2.1. Global casein production – volume trends & forecasts	7
2.2. Casein production - historic trends	8
2.3. Casein production – recent trends	9
2.4. Casein production – expected future trends	11
3. Casein – A Technical & Applications Overview	14
3.1. Casein – the major protein in milk	14
3.2. Types of casein & casein products	15
3.3. Casein – commercial applications	18
3.4. Acid casein & caseinates – mainstream applications	20
3.5. Acid casein & caseinates – nutritional, pharmaceutical & medical applications	21
4. The Casein Industry – Undergoing Change	22
4.1. Entering an era of transition	22
4.2. Casein price trends & relationships	22
4.3. Casein enrichment of cheese milk by UF	24
4.4. New methods for casein production	24
4.5. Commercial-scale fractionation	25
4.6. The casein micelle & encapsulation	25
5. The Global Protein Hydrolysates Market – Volume Trends & Composition	26
5.1. Protein hydrolysates market - global volume trends & projections	26
5.2. Milk-derived hydrolysates – global volume trends & projections	26
5.3. Composition of the global protein hydrolysate market – dairy versus non-dairy proteins	27
5.4. Applications for protein hydrolysates – a user sector analysis	29
6. Casein Trade – Export Volumes	30
6.1. Global casein exports	30
6.2. Major exporters – trends & volume share	31
6.3. Recent trends in casein exports by source	32
6.4. Trends in casein versus caseinate volume exports	32
7. Casein Trade – Import Volumes	34
7.1. Global casein imports	34
7.2. Five major importers – trends & volume share	35
7.3. Recent trends in casein imports by destination	36
7.4. Trends in casein versus caseinate volume imports	37
8. U.S. – Casein Suppliers	38
8.1. Major players	38
8.2. U.S. casein/milk protein imports	39
8.3. Strategic considerations – U.S. casein supply	40
8.4. Casein in a complex U.S. protein matrix	41
8.5. Policy issues	43

8.6. Issues for the U.S. to face.....	44
9. Oceania – Casein Suppliers	46
9.1. Major players	46
9.2. Strategic considerations – Oceania casein supply	46
9.3. Product mix optimization - a Fonterra perspective on casein manufacture.....	47
9.4. Ingredient Solutions – a start-up that failed to start	48
10. EU – Casein Suppliers	49
10.1. Major players	49
10.2. Casein & caseinate production in the EU	51
10.3. Strategic considerations – EU casein supply.....	53
11. China - Casein Suppliers	54
11.1. Major players	54
11.2. China casein specifications.....	55
11.3. Strategic considerations – China casein supply	56
12. Latin America – Casein Suppliers	57
12.1. Major players	57
12.2. Strategic considerations – Latin American casein supply	58
13. Ukraine – Casein Suppliers	59
13.1. Major players	59
13.2. Strategic considerations – Ukraine casein supply	59
14. Commercial Casein	61
14.1. The preparation of commercial casein.....	61
14.2. Comparative nutritional properties of casein and other dairy/non-dairy protein sources	64
14.3. The properties of casein	65
14.4. Food uses for casein – levels of usage in different food systems	67
14.5. Technical applications for casein.....	67
14.5.1. Overview	67
14.5.2. Casein/caseinate protein polymers	68
14.5.3. The use of casein in the coatings industry.....	68
14.5.4. Casein in the plastics industry.....	68
15. Caseinates.....	69
15.1. Overview	69
15.2. Variations in types of caseinate produced	70
15.3. Manufacturing methods	71
15.4. Standards and specifications for caseinate	74
15.5. Caseinate properties.....	76
16. Casein Hydrolysates	78
16.1. Protein hydrolysates	78
16.2. Bioactive peptides.....	78
16.3. Preparation of bioactive peptides	81
16.4. Hydrolyzed caseins.....	81
16.5. Hydrolyzed casein as an egg white solids replacer	82
17. Casein Glycomacropeptide	84
17.1. Purpose and functions of cGMP	84
17.2. Manufacturing method	84

17.3. Commercial cGMP specifications	86
17.4. Biological benefits and potential therapeutic applications in oral care	87
18. Casein Phosphopeptide.....	89
18.1. What are CPPs?	89
18.2. Purpose and functions of CPP	90
18.3. Preparation and specification of CPP	90
18.4. Casein phosphopeptide enriched hydrolyzed casein	91
18.5. CPP in therapeutic applications.....	92
18.6. Exit by Bonlac Foods from CPP-ACP business	93
18.7. Japan's FOSHU system – therapeutic recognition for CPP	93
18.8. Biological functions and potential therapeutic applications in oral care	94
18.8.1. <i>CPPs in oral health</i>	94
18.8.2. <i>CPP-ACP</i>	95
18.9. New technology for enrichment/isolation of CPPs.....	96
18.10. CPPs – other nutraceutical applications	97
18.10.1. <i>Mineral supplementation</i>	97
18.10.2. <i>Humanising bovine milk</i>	97
18.10.3. <i>Immunomodulation</i>	97
19. Specialist Casein Products – Culture Media & Other Uses	98
19.1. Acid casein hydrolysate	98
19.2. Casein digest	98
19.3. Casein trypsin peptone	99
19.4. 'Vitamin-free' test casein.....	99
19.5. MG Nutritionals – micellar casein	100
19.5.1. <i>Ascend Sport micellar casein</i>	100
19.5.2. <i>MG Nutritionals' sports nutrition range extension - Ascend Protein Rebound</i>	102
19.6. Hydrolyzed casein in infant formulae	102
19.6.1. <i>Brands in North America</i>	102
19.6.2. <i>Mead Johnson Nutritionals' casein hydrolysate formulae – composition and features</i>	103
19.7. Lactium.....	104
19.7.1. <i>Description, composition & applications</i>	104
19.7.2. <i>Lactium as a bioactive ingredient</i>	105
19.7.3. <i>Safety of Lactium</i>	106
19.8. Somnaceutics Limited – casein peptide developments.....	106
19.8.1. <i>Somnaceutics Taiwanese trial marketing</i>	107
19.8.2. <i>Glycated casein peptides - Somnaceutics Technology</i>	107
20. Casein & Casein Products as Blending Components	108
20.1. Overview	108
20.2. Dairy analogues	109
20.3. Casein blends in N.Z. – NZFSA descriptions	109
20.4. Milk protein concentrates	110
21. Casein & Casein Products as Emulsifiers	113
21.1. What are emulsifiers?	113
21.2. Size of the global emulsifier industry	113
21.3. Key features of the emulsifier market	115
21.4. Dairy ingredients in the emulsifier industry	117
21.5. Dairy protein – use as emulsifiers.....	117
21.6. Casein & casein derivatives as emulsifiers.....	118

22. Caseinates in the Cream Liqueur Industry	120
22.1. A strategic backdrop to the cream liqueur industry	120
22.2. Key global players in the industry	120
22.3. Baileys Original Irish Cream – the industry pioneer	122
22.4. Stability as an issue in formulation	123
22.5. Manufacturing methods for cream liqueur	123
22.6. Compositional overview for cream liqueurs	124
22.7. Key considerations – sodium caseinate usage in cream liqueurs	125
23. Casein Glues	127
23.1. Background	127
23.2. Characteristics of casein glues	127
23.3. Casein used in casein glues	128
23.4. Some features of casein glues	128
23.5. Wet-mix casein glue	129
23.6. Competition to casein glues – soy protein	130
24. Casein/caseinates in the Processed Cheese Industry	131
24.1. The global processed cheese market – current volume & future trends	131
24.2. Cheese analogs – a channel for utilising casein products	132
24.3. Ingredients in processed cheese manufacture	132
24.4. Reformulation of processed cheese products – the use of casein	134
24.5. Casein & casein products in processed cheese manufacture	134
24.5.1. Calcium caseinate	134
24.5.2. Sodium caseinate	134
24.5.3. Acid casein & its derivative	135
24.5.4. Rennet casein	135
24.5.5. Casein hydrolysates	137
24.5.6. Micellar casein	137
24.6. Processed/imitation cheese products – formulations using casein/caseinate	137
25. Casein Paints	144
25.1. What are casein paints?	144
25.1.1. Casein emulsion	145
25.2. Casein varnish	145
Attachment 1: Agri-Dairy Commercial Casein & Caseinate Specifications	147
Attachment 2: Millipore’s LucraTone™ Tryptone	150
Attachment 3: ‘Vitamin-free’ Test Casein	152
Attachment 4: Lactium	153
Notes	161
